**What and where is the project?**

The Redwood Road project consists of widening on both sides Redwood Road from 10400 South to 12600 South. The new roadway will include:

- Two travel lanes in each direction and a median/left turn lane
- 10-foot shoulders with a striped 4-foot bicycle lane
- Raised medians, dual-left turn lanes, and right turn pockets at major intersections
- Right turn pockets at future signalized intersections

**Construction  
Team:**

## Planned Construction Schedule

### 2006

- New signal at 10610 South (in front of the South Jordan City offices)
- Utility relocations (power, phone, gas, and cable)
- Storm Drain improvements
- Water line improvements (South Jordan and Riverton will both be upgrading their pipe sizes)
- Clear/grub (removal of trees and landscaping to prepare for road widening)
- Irrigation relocation (will wait until after October 15th when the irrigation lines are dry)
- Midas Creek box culvert

### 2007

- Roadway widening / paving
- Planned to complete construction by the end of 2007

## Staying Involved

The construction team is committed to keeping the public informed about construction activities associated with the Redwood Road project. Surveys will be delivered to the residents adjacent to Redwood Road prior to construction starting. Filling these out and returning them to the construction team will help us to understand how to best keep you informed.

A Community Coordination Committee (CCC) has been organized to identify and prioritize construction concerns. The CCC represents residents, businesses, and the traveling public. They will work with UDOT and the contractor during construction to ensure that the needs of the people they represent are being met. The CCC is responsible for administering the contractor's monetary performance incentive.

In addition to meeting with the Community Coordination Committee and providing email updates, the construction team is available to meet with affected businesses along Redwood Road.

## WHAT TO EXPECT DURING CONSTRUCTION:

**MAIL** – For property owners directly on Redwood Road, the contractor plans to temporarily place mailboxes in buckets so that they can be easily moved during construction, but still accessed by you and the Postal Service for regular mail delivery.

**GARBAGE** – Garbage pickup is expected to continue under the current plan. If changes are necessary, property owners along Redwood Road will be notified.

**UTA** – Bus routes will continue along Redwood Road during construction. If you have questions regarding this, please call UTA at 1-888-RIDE-UTA.

**ACCESS** – The widened Redwood Road will be a concrete surface, much like the portion to the north from 9000 South to 10400 South. When placing the concrete, driveway closures may last up to 5 days. Property owners will be notified 7 days in advance. The contractor will work individually with businesses owners to maintain a business access.

**CLAIMS** – Video monitoring will take place for properties located on Redwood Road as construction starts, to document before-construction conditions.

**UTILITIES** – Short-term utility disruptions may be necessary during utility relocations. Affected property owners will be notified in advance when these may occur.

**SCHOOLS** – The construction team plans to hold a school safety program to help keep your kids safe during construction. The Meet the Contractor Open House will have information about school safety.

**SAFETY** -- Please be safe and remember that construction is a dirty business! There will be dust and noise, but UDOT and the contractor will do their best to minimize construction impacts to businesses, residents, and drivers.

**SPECIAL NEEDS** – If there is someone in your household who has special needs, please contact the project hotline at 597-2464 to let us know in advance how we can work with you.

*Growing Better Together*

## YOU ARE INVITED TO MEET THE CONTRACTOR

Come and meet the Geneva Rock construction team that will be performing the road widening.

When: July 11, 2006

Where: South Jordan Community/Senior Center  
(10778 South Redwood Road)

Time: 4:30 – 7:00 p.m.

This will be an open house forum, feel free to join us at any time between 4:30 and 7:00 p.m.

Refreshments will be served.
